

## International Presence

INTECH's business portfolio optimizes the balance between domestic and international work. For Indian clients this translates into access to a team with experience in global practices and an awareness of the latest developments in both business operations and system developments worldwide. INTECH's global operations are based out of our New York office and serves clients in the US, Canada, Europe, Australia and New Zealand.

**Microsoft Partner**  
Gold Enterprise Resource Planning

"M/s Intech Systems Pvt. Ltd. is well known for their expertise in manufacturing systems and for having provided solutions in the Foundry Industry. They worked with us in arriving at a solution based on Microsoft Dynamics AX, which was most comprehensive, and easy to use. We are happy with their team's approach for the implementation and the support their team has provided us. We are very happy that we have made them our technology partner for this project."

- Mr. Jagat Shah, Managing Director, Inductotherm Group

"With Dynamics NAV we are able to track man and material flow for all our jobs independently. This has helped us to arrive at accurate project costs. Further, the tracking has also helped us improve response times to our customers significantly."

- Mr. Kunjal Patel, Managing Director, Voltamp Transformers Ltd

"The principle reason we bought NAV Dynamics was the availability of a CRM solution along with an ERP that could help us streamline and manage our Sales force as well as manufacturing. The idea of my sales persons logging in from anywhere in the country and being able to create a quote for any of our products was very appealing to us."

- Mrs. Neelam Balani, Director, Rotomag Motors & Controls Pvt Ltd

# INTECH Systems

Think Customers. Think Ahead.

Intech Systems is a leading software consulting, implementation and management services company with three decades of experience. With exclusive focus on Microsoft Dynamics, Intech provides software solutions on the Microsoft Dynamics platform to customers and partners internationally. Specializing in the field of Manufacturing, Oil & Gas, and Professional Services, Intech's global solutions are adapted by clients around the world.

## Industry Experience

Intech's vertical focus has enabled it to create Microsoft Certified Solutions – DynaEquip and DynaCast that serves its many clients.

Discrete Manufacturing	Process Manufacturing	Project Management
Industrial Equipment & Machinery	Foundry	Oil & Gas
Automotive	Food & Beverages	Service Industry
General Manufacturing	Ceramic & Sanitary	EPC
	Chemical Manufacturing	

India is growing at a fast pace and businesses are connecting with suppliers and customers worldwide. In this “Flat” World, Technology is playing a key role to enable business to connect their people, with their suppliers and most importantly, customers.

Microsoft Dynamics energizes and empowers these connections with real time information and collaboration. Enabling individuals to drive their vision while also helping organizations manage their end-to-end business processes.

Intech's expertise in understanding Business Processes and recommending Best Practices coupled with 30+ years of experience has enabled many companies to streamline and automate their operations. We pride in having 100% successful implementations and being the only GOLD partner in Gujarat.

## Products and Services

Microsoft Dynamics is a line of integrated, adaptable business management solutions that enables you and your people to make business decisions with confidence. Built to work with Microsoft Technologies, it works easily with the systems your company already has implemented.

**Innovative, Flexible, Fast to configure and deploy.**

Microsoft Dynamics NAV gives small and midsize businesses complete control over your core business processes, the precision to perfect your supply chain, and the insight that employees need to perform at their best. No wonder it is trusted by more than 94,000 diverse businesses around the world.

**Agile, Innovative and Simple**

Microsoft Dynamics AX is a multi-language, multi-currency enterprise resource planning (ERP) business solution with comprehensive global business management features for financial, human resources, and operations management as well as additional industry capabilities for retailers, professional service industries, financial service businesses, manufacturers, and public sector organizations.

Microsoft Dynamics CRM is an integrated customer relationship suite helping businesses both large and mid-market alike to win and cultivate profitable customer relationships. It provides a comprehensive set of cost effective marketing tools to better understand your customers from first contact through purchase and post-sales, and channelize your resources to the areas of maximum returns.

## Add-on Solutions

- Intech has partnered with niche add-on solution providers to help clients reap the best out of ERP system.
- Microsoft SharePoint - Document Management System and Work Place Collaboration
  - Quick Report - An Enhanced Business Intelligence Tool based out of Microsoft Excel
  - Adrenalin - Human Resource Management and Payroll Solution
  - Saral PayPack - A Complete Payroll Solution
  - Mobility Solutions
